TORCH OF FIRE VISIBLE OVER HUNDRED MILES

(By Associated Press)

WHITTIER, Cal., Feb. 16.—A torch of fire 30 feet thick at its base, and extending 600 feet into the air, burned throughout the night at Santa Fe Springs, being visible for over 100 miles. It was the second ignition of the well on the Bell No. 2 oil well boring of the Union Oil company. Oil well fire dynamiters who early today prepared to blow out the great column of flame said this was one of the largest gas fires ever known in southern California.

COIL OF ROPE APPEARED TO PRIVATES U. S.

(By Associated Press)

NEW YORK, Feb. 16.—One hundred and sixteen New York state soldiers took their own lives overseas during the world war, says a statement issued today by Adjutant General Kincaid. One hundred were enlisted men and 16 were officers. A coil of rope, the report said, "seemed to possess an uncanny fascination for the enlisted men," while the officers as a rule used their own pistols.

MEETING NOTICE.

The Woman's Relief Corps will meet promptly at 8 o'clock this, Thursday, evening, at Odd Fellows' hall. By order

PRESIDENT.

MANY OUTSIDE DISTRICTS TO SHOW ACTIVITY

Mining conditions throughout southern Nevada are showing some improvement and the prediction is freely made that the coming spring and summer will bring about a revival of the industry that will prove a revelation to the outside world. The fact that a reduction in the milling charges on custom ore has been announced by the Tonopah Belmont Development company, the same to be effective March 1, will no doubt result in many properties receiving attention that have hitherto been in distress. As a result, many should be received from many outside sections which will assist in keeping the wheels of industry moving at even greater speed than heretofore.

Many interested in mining properties in the Belcher, Silver Bow, Edmund Eden creek and Arrowhead districts, are awaiting the advent of good weather that exploration may be undertaken upon numerous prospects that possess great merit. Belcher will unquestionably be a lively community during the summer in view of the fact that an enormous campaign of development will be waged on the original Belcher and other mines. Already some work is being performed on the Belcher and the fact that a rolling plant with a capacity of 50 tons daily is to be constructed, gives color to the situation. This mill will be fed upon Belcher ores, while it is also proposed to receive custom ore from adjacent properties.

The greatest drawback that Belcher has suffered has been lack of milling facilities, the transportation haul to Tonopah having been found to be excessive. The richness of the district has never been disputed and mining men have persistently kept on their assessment work, being very in their belief that it was only a matter of time until the obstacles that have confronted them for so many years would be removed.

While little is heard concerning Clifford, it is nevertheless a fact that the Clifford mine is making an exceptionally fine showing, and that the outlook is bright for regular shipments being made during the summer months. Eden creek will shortly begin to take on new life in view of the campaign of development that is being waged upon the holdings of the Eden Creek Mining company, managed by Mark Bradshaw, well-known Tonopah mining man. Arrowhead has been quiet for the past few months, but development on a small scale has been going forward on two or three properties. The Arrowhead Extension Mining company has been actively engaged for the last few weeks, and a satisfactory showing is reported as being in evidence.

HISTORIC OLD ROUTE IS ONCE AGAIN OPENED

(By Associated Press)

SAN FRANCISCO, Cal., Feb. 16.—When M. Ferdinand de Lesseps, French engineer, started the construction of a great canal from the gulf of Limon to the bay of Panama, Central America, in 1881, he is supposed to have happened on the rude graves of many travelers over the "gold route." They were the graves of those who had fallen and died on this route in the heart-breaking journey from coast to coast through the almost impenetrable jungle, while answering the feverish lure of California gold. Within the past two weeks the "gold route," which really reached from New York to San Francisco, has been opened again for it had been a memory only for more than 50 years.

Today's route leads by the graves of the hardy Argonauts and follows in a general way the jungle trails that they trod, but goes through the Panama canal. The canal has blotted out the land lanes of the "gold route." The arrival of the steamers Venezuela in New York early in February completed the reopening of the historic old route.

GUS C. JOHNSON, who is associated with the Pacific Talc company as a foreman at the Silver Lake talc mine, is visiting with his family in Tonopah.

WILES SMITH, manager of the Butte theatre, arrived home this morning from a visit of 10 days to San Francisco. While there he has been looking at the latest films and plays which will be shown shortly at the theatre at the Butte.

COMMITTEE OF SENATORS WILL VISIT PROJECT

(By Associated Press)

WASHINGTON, D. C., Feb. 16.—The senate agricultural committee has asked the senate to authorize for authority to visit the Nevada Shoshone power and nitrate project in connection with the committee's consideration of Ford's offer to lease the project. The resolution, which proposed that the whole committee of 17 make the trip, was referred to the auditing committee because of the expenditures that would be entailed.

DEEP PROBLEMS TO BE PROBED AT HONOLULU

(By Associated Press)

HONOLULU, T. H., Feb. 16.—Financial and economic problems of countries bordering the Pacific ocean will be placed under the microscope and endeavors will be made to discover remedies for their alleviation. The Pan-Pacific Commercial conference which will meet here, probably in July, under the auspices of the Pan-Pacific union, according to the tentative program made public today.

AMUSEMENTS

EUGENE O'BRIEN AT THE BUTLER TODAY

"Cavaliers of the West" starring Eugene O'Brien, a new Seimick comedy, will be shown at the Butler today as Charley Reilly, returning from life among the cowpunchers to life along Broadway, Mr. O'Brien plays the role of a temperamental Irish-American youth whose weakness is an uncontrollable urge to assist ladies in distress. His made and gaudy, the political boss of New York and self-proclaimed "boss" nephew, prepares to receive his protégé on his arrival, when a telephone message from the boy informs him of his arrest for having unwittingly helped an escaping confidence woman to escape a detective. Thus unsuspectingly opens the tale of the trials of Charley, and for a number of intensely entertaining reels the graphic account of these same trials, augmented by attentions from crooks and police, and from the speed of the film, keeps the spectators on the edge of their seats. In last, old gentleman Reilly bulks play which will be shown shortly at the screen at the Butler.

FRANK DUMONT MEETS WITH BAD ACCIDENT

Frank Dumont, who is confined at the Mine Operators' hospital as a result of receiving three fractures to his right arm, is reported as getting along as well as could be expected under the circumstances. Mr. Dumont was injured last Saturday while working in the Belmont tailings plant at Millers. In some manner his right hand became caught in a belt and before he could extricate the member his arm was fractured in three places. It will be some time before he will have the complete use of the arm again, but a complete cure is anticipated.
